

Good business sense ...

The VET solution

"I'm getting paid while I learn and I'm building a great career as well."

Paul Maksimovic
Certificate III Engineering (Boiler Maker)
Fingers Aluminium

"I did a Certificate II in Business while I was at school and I did my work placement at Darwin City Council. I work there full-time now."

Lauren Motlop
Certificate III Business
Darwin City Council

"I started doing VET at school and now I'm doing an Automotive apprenticeship at Kerry's Automotive Group - it's a great way to build a career."

Danial Goddard
Certificate III Light Automotive
Kerry's Automotive Group

The VET solution

The benefits of VET

VET is the best way of developing the workforce you need to meet the demands of the future.

And VET has a number of unique and positive business advantages:

- ✓ Your business gets to train its future staff before they are permanently employed.
- ✓ Apprentices can be trained in a way that suits your business culture and skills needs.
- ✓ Employing staff who already know your business will dramatically increase their short-term productivity.
- ✓ VET allows your business to groom its next generation of employees.
- ✓ Given the current skills shortage, businesses have to train their own anyway - so why not get in now and 'grow your own'.
- ✓ Young apprentices bring cutting-edge skills and a fresh outlook to your workplace.

An added incentive ...

For information about employer incentives and the new Workwear Workgear bonus, please contact your local New Apprenticeships Centre on 1300 137 130.

Developing your workforce

VET is a fast and efficient way of developing your existing workforce.

It will provide your employees with nationally accredited professional development opportunities and keep your business up-to-date with the latest skills and innovations.

VET can really make a difference to your workplace and business capacity:

- ✓ Apprentices will bring new skills to your business.
- ✓ VET can be used as a part of your staff development programs.
- ✓ VET allows you to upskill 'tried and true' employees who know your business.
